1. About Antares Capital Partners Ltd

Responsible Entity

Antares Capital Partners Ltd (ACP) is the Responsible Entity of the Fund and the issuer of this PDS and any units offered under it.

As the Responsible Entity, ACP is responsible for all aspects of operating the Fund including administration of the assets and overall investment policy.

ACP has appointed OneVue Fund Services Pty Limited to provide unit registry services (Antares Registry Services or the Unit Registry) to the Fund.

ACP is a member of the NAB Group. ACP in its capacity as Responsible Entity may also be referred to as 'us', 'we' or 'our' throughout this PDS.

Antares

A business unit within ACP is the investment manager of the Fund. ACP in its capacity as investment manager is referred to in this PDS as 'Antares'. Antares is responsible for making investment decisions in relation to the Fund and implementing the Fund's investment strategy.

The Fund is part of a suite of products known as the Antares Professional Selection Investment Funds (Funds). For these Funds, Antares uses its expertise to actively manage a range of Australian equity portfolios including core, concentrated and listed property securities with the aim of achieving each fund's investment objective. For further information on the Funds and their respective PDSs, please refer to our website antarescapital.com.au. You will need to read the relevant PDS before making an investment decision in respect of these Funds.

Important information

This Product Disclosure Statement (PDS) summarises significant information about the Antares Australian Equities Fund (Fund) which is part of the Antares Capital Partners Ltd range of Professional Selection Investment Funds.

It also contains a number of references to important information in the Product Guide – Equities (Product Guide) marked with an **I** symbol. The Product Guide is a separate document which forms part of this PDS. This PDS and the Product Guide contain important information you should consider before making an investment decision in relation to the Fund. The information provided in this PDS is general information only and does not take into account your personal financial situation or needs. We recommend you obtain financial advice for your own personal circumstances before making any investment decision.

These documents are available from antarescapital.com.au/aaef or you can request a copy free of charge by calling us on **1800 671 849** or by contacting your investor directed portfolio service, IDPS-like scheme, master trust or wrap operator (collectively referred to as an 'IDPS' in this PDS). To invest directly in the Fund you must have received the PDS (electronically or otherwise) within Australia.

The information in these documents is up to date at the time of preparation and may change from time to time. If a change is considered materially adverse, we will issue a replacement PDS. Information that is not materially adverse to investors can be updated by us and will be published on our website antarescapital.com.au/aaef. A paper copy of any updates will be provided free of charge upon request. You should check you have the most up to date version before making an investment decision. All amounts in these documents are in Australian dollars unless stated otherwise.

Antares Capital Partners Ltd, the responsible entity of the Fund (Responsible Entity), is a fully owned subsidiary within the National Australia Bank Limited Group of companies (NAB Group). No company in the NAB Group guarantees the capital value, payment of income or performance of the Fund. An investment in the Fund does not represent a deposit with or liability of the NAB Group and is subject to investment risk, including possible delays in repayment and loss of income and principal invested. This Fund is no longer a complying investment under the rules applicable to significant investor visa holders in the Migration Act 1958 (Cth) and the Migration Regulations 1994 (Cth).

2. How the Antares Australian Equities Fund works

About the Fund

The Fund is an actively managed portfolio of equities (primarily shares in companies, but may also include units in trusts) listed, or expected to be listed on the Australian share market.

Where we refer to companies or shares in this PDS, it includes trusts and units.

The Fund operates like most other managed investment schemes. Your money is pooled together with other investors' money to buy investments which are managed on behalf of all investors.

When you invest in a managed investment scheme, such as the Fund, you gain exposure to investments that you may not ordinarily have access to, if you invest on your own.

The Fund is governed by its constitution (Constitution) and is registered with the Australian Securities and Investments Commission (ASIC). ASIC takes no responsibility for this PDS or the operation of the Fund by ACP.

Units and unit prices

The Fund is a 'unit trust'. When you invest in the Fund you acquire an 'interest' in the form of units in the Fund, rather than ownership of the underlying assets of the Fund. When your money is paid into the Fund, units are issued to you and when your money is paid out, your units are cancelled.

Unit prices fluctuate according to changes in the market value of the assets held by the Fund. Only one class of units (Professional Selection class) is offered under this PDS. The unit price is calculated daily on Melbourne business days by dividing the Fund's net asset value (total assets less total liabilities) referable to the relevant class of units by the number of units on issue to all investors in the class at the time the unit price is calculated.

All references to 'business day' in this PDS and the Product Guide mean days other than a Saturday or a Sunday, or a public or bank holiday in Melbourne.

Investing directly

To invest in the Fund you will need to complete an Initial Application Form. The Initial Application Form is available at antarescapital.com.au or on request from Client Services on 1800 671 849. Please see section 8 'How to apply' for more information.

Once you've opened your account, you can make additional investments by sending the completed Additional Investment Form by post or emailing a scanned copy to Unit Registry. Application payments can be made via direct deposit, direct debit, BPAY®.

Alternatively, you can choose to establish a Regular Savings Plan if you wish to make regular investments in the Fund.

If accepted, application requests received by the Fund before 2:00 pm (Melbourne time) on any business day will normally receive that day's unit price. Application requests received after 2:00 pm (Melbourne time) will normally receive the next business day's unit price.

If you invest directly into the Fund then you hold units in the Fund and have the rights of a unitholder, as set out in the Constitution. This applies whether your investment is made using the Initial Application Form, or the Additional Investment Form.

® Registered to BPAY Pty Limited ABN 69 079 137 518

Minimum balance

The minimum initial investment (and the minimum balance) is \$20,000. Additional investments can be made at any time. The minimum additional investment amount is \$5,000. The minimum Regular Savings Plan amount is \$500 on a monthly basis.

Switching your investment

You can switch between this Fund and the other Funds at any time by completing the Switch Request Form and sending it via post or email to the Unit Registry.

The Switch Request Form is available at antarescapital.com.au or on request from Client Services on 1800 671 849.

All switches take the form of a withdrawal and an application so the relevant buy/sell spreads are applicable. The minimum switching amount is \$20,000. All switches are subject to maintaining a minimum balance of \$20,000 per fund. The minimum additional investment amount of \$5,000 applies if you are switching into a fund in which you already hold units. Information on the Funds can be found at antarescapital.com.au. You will need to read the relevant PDS before making an investment decision in respect of these Funds.

You should be aware that switching your investment between Funds may have tax implications. Please consult your tax adviser for advice as required.

Accessing your money

The minimum withdrawal amount is \$5,000. If a withdrawal request results in you holding less than the minimum balance in the Fund, we may treat your withdrawal request as being for the whole of your investment in the Fund.

You can make a withdrawal request at any time by sending the completed Withdrawal Form by post to the Unit Registry.

The Withdrawal Form is available at antarescapital.com.au or on request from Client Services on 1800 671 849.

Alternatively, you can scan and email your Withdrawal Form to us by using our electronic redemption facility. Refer to the Product Guide available at antarescapital.com.au/antares_pg for further information.

Once lodged, withdrawal requests may not be cancelled except with our consent.

If accepted, withdrawal requests received by the Fund before 2:00 pm (Melbourne time) on any business day will normally receive that day's unit price. Requests received after 2:00 pm (Melbourne time) will normally receive the next business day's unit price.

Withdrawal payments will generally be made to your nominated Australian bank account within three business days of receipt, although the Fund's Constitution allows up to 30 business days.

Actioning of withdrawal requests and payment may be delayed, for example, if underlying assets need to be sold. In certain circumstances, such as when there are adverse market conditions, we may suspend withdrawals for a period of up to one month.

In circumstances where withdrawals are suspended, the unit prices used for a withdrawal may be those available on the day the withdrawal takes effect, rather than the day the withdrawal request is received.

In the unlikely event that the Fund is no longer liquid (as defined in the Corporations Act 2001 (Cth)), you may only withdraw your funds in accordance with any withdrawal offer that we make.

Income distributions

The income of the Fund will generally be calculated effective the last day of September, December, March and June each year. To receive a distribution, you must hold units on the distribution calculation date.

Your entitlement to income is calculated on the basis of the number of units you hold at the end of the distribution period compared to the number of units of the Fund (referable to the class) on issue at the end of the distribution period. We generally aim to pay income distributions within 10 business days.

There may be periods in which no distributions are made or the Fund may make additional distributions.

Our current practice is to generally distribute all of the net taxable income of the Fund to investors each financial year (including net capital gains and any net gains on currency management). As the Fund is an Attribution Managed Investment Trust (AMIT), we have the discretion to accumulate income (instead of distributing all of the income) and if we do so, the accumulated income will be reflected in the unit price. We intend to continue our current practice to distribute all of the income (including any capital gains) for each year. We will notify you if this changes.

You can request to have income distributions:

- reinvested into the Fund, or
- paid into your nominated Australian bank account.

If you do not make a selection we will reinvest the distribution into the Fund.

You can change your distribution selection at any time by sending a completed Change of Details Form by post or emailing a scanned copy to Unit Registry at least five business

days prior to the end of a distribution period. The Change of Details Form is available at antarescapital.com.au or on request from Client Services on 1800 671 849.

Investing via an IDPS

If you invest in the Fund through an IDPS, then you do not hold units in the Fund and you have none of the rights of a unitholder.

Instead the IDPS holds units on your behalf, acquires unitholder rights and may exercise these rights as it sees fit without reference to you.

We authorise the use of this PDS as disclosure to persons who wish to access the Fund through an IDPS. This PDS must be read together with offer documents provided by the IDPS operator and you can apply to invest or perform other transactions by completing the relevant forms provided by the IDPS operator.

Investing through an IDPS may result in different conditions applying from those referred to in this PDS including:

- minimum balance requirements
- fees and other costs
- cooling-off rights
- how to transact on your investment
- timing of processing of transactions and payment of distributions and withdrawals, and
- provision of statements and other information.

You should contact your financial adviser or IDPS operator for further information.

I You should read the important information about **How the Funds work** before making a decision. Go to the Product Guide available at antarescapital.com.au/antares_pg

The material relating to **How the Funds work** may change between the time when you read this statement and the day when you acquire the product.

3. Benefits of investing in the Antares Australian Equities Fund

Access to Antares' investment expertise

Antares believes that the pricing of individual companies and industry sectors on the Australian share market is at times inefficient. This mispricing can occur when investors take a short-term view, over-react or under-react to changes in a company's operating environment, or invest based on generalisations about similar companies. As a consequence, the price of a company sometimes differs from what Antares believes its value to be.

Antares seeks to identify and exploit these opportunities by taking a longer-term view, and through detailed systematic research of

individual companies from a bottom-up perspective. In practical terms, Antares seeks to invest in companies trading on the share market at the largest discount to their underlying value.

Bottom-up research by experienced investment professionals

Underpinning Antares' approach to stock selection is an experienced team of analysts. The team gathers information through financial analysis, peer group comparison and company visits to gain a thorough understanding of the companies and the issues they face. Antares' detailed systematic research of companies is the foundation for all its investment decisions.

A core portfolio of Australian equities

The Fund invests in a diversified portfolio of 30-50 Australian listed equities that Antares believe are undervalued in the expectation that they will move up to what Antares believe to be their fundamental value over the long term.

Through its style neutral approach to stock selection, Antares aims to outperform the S&P/ASX 200 Total Return Index (after fees) over rolling five year periods.

Ease of administration

It would generally be difficult for an individual investor to efficiently construct and manage a portfolio of equities similar to the Fund. Additionally, we provide investment confirmations, transaction and distribution statements, monthly Fund reports, website updates and an annual tax statement to keep you up to date on your investment. You can also access statements on your account through the online investor portal at antarescapital.com.au

Regularly add to your investment

You can choose to regularly add to your investment in the Fund through time by accessing our Regular Savings Plan.

4. Risks of managed investment schemes

Investment risk

All investments come with some risk. Some investments will have more risk than others, as it depends on the investment's strategy and assets.

The value of an investment with a higher level of risk will tend to rise and fall more often and by greater amounts than investments with lower levels of risk, ie it's more volatile.

While it may seem confronting, investment risk is a normal part of investing. Without it you may not get the returns you need to reach your investment goals. This is known as the risk/return trade-off.

The level of risk you're prepared to accept will be determined by various factors, including:

- your investment goals

- the savings you'll need to reach these goals
- your age and how many years you have to invest
- where your other assets are invested
- the return you may expect from your investments, and
- how comfortable you are with investment risk.

While Antares applies a disciplined, risk-controlled investment approach, it's important for you to carefully consider the risks of investing in the Fund and to understand that:

- its value and returns will vary over time
- investments with higher long-term return potential usually have higher levels of short-term risk
- returns aren't guaranteed and you may lose money
- future returns will differ from past returns, and
- laws affecting your investment may change in future.

Significant risks

Many factors influence an investment's value. The significant risks of investing in the Fund are typical of the risks of managed investment schemes whose investment strategy is to invest in a diversified portfolio of listed Australian equities.

These risks include:

- **Market risk:** risks that affect entire share markets including investor sentiment, economic impacts, inflation rates, regulatory conditions, interest rates, and political and catastrophic events.
- **Company specific risk:** a company's share price is affected by events within and outside the company. These events include:
 - changes to management
 - profit and loss announcements
 - the expectations of investors regarding the company
 - competitive pressures
 - legal action against the company
 - social and government issues
 - climate change, and
 - environmental issues.
- **Derivatives risk:** derivatives are contracts that have a value derived from another source such as an asset, market index or interest rate. There are many types of derivatives including swaps, options and futures. They are a common tool used to manage risk or improve returns. Some derivatives allow investment managers to earn large returns from small movements in the underlying asset's price. However, they can lose large amounts if the price movement in the underlying asset is unfavourable. Risks particular to derivatives include the risk that the value of a derivative may not move in line with the underlying asset, the risk that counterparties to the derivative may not be able to meet payment

obligations and the risk that a particular derivative may be difficult or costly to trade.

- **Liquidity risk:** this is the risk that an investment may not be able to be sold without incurring large transactional costs or quickly enough to prevent or minimise a loss. A lack of liquidity may also affect the amount of time it takes us to satisfy withdrawal requests.

- **Fund risk:** risks specific to the Fund include the risk that the Fund could terminate and that the fees and costs could change. There is also a risk that investing in the Fund may give different results than investing directly because of the impact of fees, income or capital gains accrued in the Fund and the consequences of investments and withdrawals by other investors.

- **Investment manager performance risk:** investment managers have different approaches to managing portfolios, which invariably results in different investment returns. No single investment approach is guaranteed to outperform all others in all market conditions. Changes to investment markets and within an investment manager's firm may also affect an investment manager's performance.

5. How we invest your money

The following table provides an overview of the Fund's investment return objective and investment approach.

You should consider the likely investment return and risk of the Fund and your investment time frame when deciding whether to invest into the Fund.

Antares Australian Equities Fund	
Fund description	The Fund is an actively managed diversified portfolio of equities listed (or expected to be listed) on the Australian share market which aims to add value across the market cycle.
Investment return objective	To outperform the Benchmark (after fees) over rolling five year periods.
Benchmark	S&P/ASX 200 Total Return Index
Investment approach	Antares follows a bottom-up investment process, which means investment decisions are made by undertaking in-depth proprietary research and analysis of individual companies. In general, Antares aims to invest in companies where the current share price does not fully reflect Antares' view of the potential value of each company's business. Through company contact and detailed financial and non-financial analysis, Antares research analysts gain a first-hand understanding of Australian businesses and the industries in which they operate.
Indicative asset allocation ranges	Australian equities: 90 - 100% Cash and cash equivalents: 0 - 10%
Use of derivatives	The Fund generally uses these investments for the purpose of cash management and to minimise investment risk. The Fund can invest in a range of derivatives, typically exchange traded options or Share Price Index (SPI) contracts. These are futures contracts that provide exposure to Australia's top 200 companies without having to buy or sell shares in every company in the Index. Derivatives will not be used within the Fund for gearing purposes. More information on how derivatives are used in the Fund is in 'Derivatives risk' in section 4.
Minimum suggested timeframe	5 years
Risk level (expected volatility)	High: While the Fund offers investors the potential for higher returns over the long term compared to funds investing in other types of assets such as fixed income or cash, the high level of volatility in the Fund means the likelihood of the value of your investment going down over the short term is relatively high. See section 4 'Risks of managed investment schemes' for further information.
The Fund may be suited to you if you:	<ul style="list-style-type: none"> • want to invest in a diversified portfolio of Australian listed equities managed by a specialist manager • are seeking long-term capital growth and income, and • can tolerate fluctuations of income and the risk of capital loss.
Labour standards, environmental, social and ethical considerations	The Responsible Entity does not itself take into account labour standards and environmental, social and ethical considerations for the purposes of selecting, retaining or realising investments. The Responsible Entity has delegated investment management decisions for the Fund to Antares. Generally, Antares does not take into account labour standards or ethical considerations when selecting, retaining or selling the investments of the Fund. However, Antares incorporates environmental, social and corporate governance considerations into its investment analysis processes, as these matters have the potential to impact the factors upon which investment decisions are based (being predominantly economic factors). Antares does not have a predetermined view as to what environmental, social or corporate governance considerations will be taken into account or the extent to which they will be taken into account when making investment decisions.

Changes to the Fund

We may make changes to the Fund (and the information in this PDS) at our discretion, including but not limited to, terminating the Fund or changing the investment manager when we deem it to be in unitholders' best interests. Some changes may be made without prior notice, including but not limited to, closing the Fund to new applications and changes to the investment strategy, asset allocation and service providers.

Where possible, we will give you prior notice of any materially adverse change.

Changes that are not materially adverse may be made available on the website antarescapital.com.au/aaef. You should check the website for the latest information or you can obtain a paper copy of any updated information free of charge by calling Client Services on 1800 671 849.

If you invest via an IDPS and you would like to receive notices of any changes to the Fund or PDS you should request this from your IDPS operator.

6. Fees and costs

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long term returns.

For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower contribution fees and management costs where applicable. Ask the Fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the Australian Securities and Investments Commission (ASIC) website www.moneysmart.gov.au has a managed funds fee calculator to help you check out different fee options.

The ASIC managed funds fee calculator can also be used to calculate the effect of fees and costs on account balances.

The fees and costs outlined in this PDS are for the Fund only.

You should read all of the information about fees and costs because it is important to understand their impact on your investment in the Fund.

If you are investing in the Fund via an IDPS, you will need to consider the fees and other costs of the IDPS when calculating the total cost of your investment.

If you consult a financial adviser you may also pay an additional fee that will be set out in the Statement of Advice between you and your financial adviser.

This section shows the fees and other costs that you may be charged in relation to the Fund. These fees and costs may be deducted from your money, from the returns on your investment or from the assets of the managed investment scheme as a whole.

The information in this table can be used to compare fees and costs between different simple managed investment schemes. Taxes are set out under the 'How managed investment schemes are taxed' section of this PDS.

All fees are shown inclusive of GST and net of Reduced Input Tax Credits (where applicable).

Type of fee or cost	Amount
Fees when your money moves in or out of the managed investment product.	
Establishment fee The fee to open your investment.	Nil
Contribution fee The fee on each amount contributed to your investment.	Nil
Withdrawal fee The fee on each amount you take out of your investment.	Nil
Exit fee The fee to close your investment.	Nil
Management costs^{1,2}	
The fees and costs for managing your investment.	
Management fee³	0.60% pa of the Fund's net asset value.

¹ An allowance for transactional costs may apply to investments into and withdrawals from the Fund. Please see 'Transactional costs' in the 'Additional explanation of fees and costs' for further details.

² Rounded to two decimal places.

³ Wholesale clients (as defined in the *Corporations Act 2001 (Cth)*) may be able to negotiate this fee by contacting Client Services.

Example of annual fees and costs for the Fund

This table gives an example of how the fees and costs for this managed investment product can affect your investment over a 1 year period. You should use this table to compare this product with other managed investment products.

EXAMPLE: Antares Australian Equities Fund		Balance of \$50,000 with a contribution of \$5,000 during the year¹
Contribution fees	0%	For every additional \$5,000 you put in, you will be charged \$0.
PLUS Management costs	0.60%	And , for every \$50,000 you have in the Fund you will be charged \$300 each year.
EQUALS Cost of the Fund		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees from: \$300. What it costs you will depend on the fees you negotiate with the Fund, your IDPS operator or your financial adviser.

¹This example assumes the \$5,000 additional investment occurs at the end of the year and that value of the Fund does not change for the entire year. Actual fees and costs are based on the value of the Fund which fluctuates daily. This example isn't designed to illustrate any transactional costs that may apply to you, such as a buy/sell spread.

Additional explanation of fees and costs

Management costs

The management costs are fees and costs for investing the Fund's assets. The management costs includes the management fee and does not include buy/sell spreads or transactional costs.

The Responsible Entity receives a management fee for managing the assets of the Fund and overseeing the day to day operations of the Fund. The Responsible Entity will pay out of its management fee any fees paid to the investment manager, and other costs and expenses incurred in operating the Fund ('operational costs') such as custody costs, registry costs, auditing fees and tax return fees.

We may decide in the future to recover operational costs directly from the Fund in addition to the management fee.

Transactional costs

Transactional costs are the costs incurred when assets in the Fund or in underlying investments are bought or sold and includes costs such as brokerage, stamp duty and settlement costs. Transactional costs may also be incurred when the market process for trading assets causes the price paid or received to be different from the value of the assets immediately after the transaction, for example, where bid/ask spreads are incurred.

The estimated transactional costs for the financial year to 30 June 2020 were approximately 0.19% of the Fund's net asset value. Of this amount, we estimate that 0.08% was recovered through buy/sell spreads with the remaining 0.11% being an estimate of the amount of transactional costs that reduced the return of the Fund.

These costs are not included in the management costs and are an additional cost to you. No part of the transactional costs are paid to us or any investment managers.

Buy/sell spreads

You incur the buy/sell spread when you buy or sell units in the Fund.

The buy spread is added to the unit price when you buy units. The sell spread is deducted from the unit price when you sell units. The buy/sell spread is not a fee and no part of the buy/sell spread is paid to us or to any investment managers. The buy/sell spread is retained in the Fund to cover the estimated transaction costs incurred as a result of investor applications and redemptions.

As at the date of this PDS, the buy/sell spreads are:

- Buy spread: 0.15% of each amount you invest into the Fund.
- Sell spread: 0.15% of each amount you withdraw from the Fund.

This means that for every \$5,000 you contribute to the Fund you will incur costs of \$7.50 and for every \$5,000 you withdraw from the Fund you will incur costs of \$7.50.

Buy/sell spreads may change from time to time. Increases (and decreases) may be significant.

The latest buy/sell spreads can be found on our website at antarescapital.com.au/aaef. Investors may not be notified of changes, and should check current buy/sell spreads before making any investment decision.

Changes to fees and costs

We may vary fees or introduce new fees up to the maximums described in the Constitution, without your consent.

Under the Constitution for the Fund, we are entitled to charge the following maximum fees:

- **Management fee:** 1.5% pa of the Fund's current value of the class of the Fund (as defined under the Constitution).

If you invest directly in the Fund we will give you 30 days' notice of any increase in fees. No prior notice will be given in respect of changes to transactional costs or buy/sell spreads. For updated details go to antarescapital.com.au/aaef

! You should read the important information about **Fees and costs** before making a decision. Go to the Product Guide available at antarescapital.com.au/antares_pg

The material relating to **Fees and costs** may change between the time when you read this statement and the day when you acquire the product.

7. How managed investment schemes are taxed

Investing in a managed investment scheme is likely to have tax consequences. Because this PDS and the Product Guide are not tax guides and tax laws are complex and change from time to time, we strongly recommend that you obtain professional tax advice in relation to your own personal circumstances. This applies whether you are an Australian resident or a non-resident for tax purposes.

Australian taxation information

The general comments below only relate to the tax consequences arising to Australian residents. The Fund itself should not be liable for tax on its net earnings. Managed investment schemes do not pay tax on behalf of resident investors. Rather investors should include their proportion of the Fund's taxable income as income in their tax returns. Investors are assessed for tax on any income and capital gains generated by the Fund. Any net losses are retained by the Fund and potentially used to offset future matching gains.

The unit price of units issued before a distribution will include income accumulated in the Fund. The income that has been accumulating will generally be distributed. You may potentially have taxation liabilities on that income.

Depending on an investor's circumstances, a revenue or capital gain or loss may arise when units in the Fund are sold, switched or redeemed.

! You should read the important information about **How managed investment schemes are taxed** before making a decision. Go to the Product Guide available at antarescapital.com.au/antares_pg

The material relating to **How managed investment schemes are taxed** may change between the time when you read this statement and the day when you acquire the product.

8. How to apply

Investing directly

To invest directly, you must complete and sign the Initial Application Form and post it to the Unit Registry with your identification documentation as applicable.

The Initial Application Form is available at antarescapital.com.au or on request from Client Services on 1800 671 849.

Application monies are payable via direct credit, direct debit and BPAY as provided for on the Initial Application Form.

If you are an existing investor in the other Funds, you can use the Additional Investment Form to invest in the Fund. Please note the minimum initial investment of \$20,000 per fund still applies.

Investing via an IDPS

To invest in the Fund via an IDPS, you will need to contact your IDPS operator and complete the relevant IDPS application form and any other documentation required by the IDPS operator. You will also need to contact your IDPS operator in relation to making additional contributions to your investment.

You should contact your IDPS about any complaint you have. Your IDPS will work with us to assist you in resolving any complaints relating to your investment in the Fund.

The remaining information in this section only applies to direct investors in the Fund. If you invest via an IDPS, and require further information you should contact your IDPS operator.

Privacy

We collect and hold information necessary to provide you with the relevant services and information related to your investment. If you do not provide your personal information we may not be able to provide you with these services. We are subject to the NAB Group's Privacy Policy which is available by contacting Client Services or visiting our website at antarescapital.com.au. We may disclose your personal information within the NAB Group and to others. More information about how we collect, use, share and handle your personal information is in our Privacy Policy, including how you may access or correct your information, the countries we may send your information to and how you may make a complaint about a privacy issue.

Cooling-off right

Unless you are a 'wholesale client' (as defined in the *Corporations Act 2001 (Cth)*), you have a 'cooling-off right' whereby you can change your mind about your initial investment in the Fund and ask for your money to be repaid.

The cooling-off right must be exercised by writing to the Responsible Entity. Your written request must be received by Unit Registry within 14 days from the earlier of:

- when you receive confirmation of your investment, or
- the end of the fifth business day after the day on which your units were issued to you.

Your cooling-off right terminates immediately if you exercise a right or power under the terms of the Fund, such as withdrawing or transferring part of your investment.

Cooling-off rights do not apply to any additional contributions you make to your investment (including those made under any distribution reinvestment election).

Any repayment of your investment under the cooling-off right is subject to an adjustment for market movements (both positive and negative), taxes, buy/sell spreads, and fees and other costs referred to in section 6 of the PDS.

Anti-Money Laundering

We are required to comply with the *Anti-Money Laundering and Counter-Terrorism Financing Act 2006 (Cth)* and as such we may need to collect information from you or anyone acting on your behalf, and your related parties, to comply with our obligations.

Foreign Account Tax Compliance Act (FATCA) and Common Reporting Standard (CRS)

We are required to collect information about your tax residency status, including whether you are a US citizen or resident for US tax purposes, and other relevant information to determine your reporting status under the FATCA and the CRS rules. If you identify yourself as a foreign resident for tax purposes, your account information may be reported to the relevant tax authorities.

Resolving complaints

Our Client Services team can usually resolve complaints over the phone. If we can't or you're not satisfied with the outcome, then you will need to write to us (address details are at the end of this PDS). We will work to resolve your complaint as soon as possible. If you are a retail client (as defined in the *Corporations Act 2001 (Cth)*) and you are not satisfied with the outcome of your complaint, you can refer the matter to the Australian Financial Complaints Authority on 1800 931 678. See afca.org.au for more information.

9. Other information

I You should read the important information about **Email terms and conditions**, **Joint investors**, **Identity verification documents** and **Keeping you informed** before making a decision. Go to the Product Guide available at antarescapital.com.au/antares_pg

The material relating to **Email terms and conditions**, **Joint investors**, **Identity verification documents** and **Keeping you informed** may change between the time when you read this statement and the day when you acquire the product.
